SMART MANUFACTURING & INDUSTRIAL IT SPECIALIST

IT Professional with 20+ years of experience in industrial and enterprise environments, including oil & gas and healthcare systems. Recently trained in smart manufacturing technologies, including IIoT, Robotics, Digital Twin, and Industrial Data Systems. Experienced in managing IT infrastructure, integrating systems, and supporting digital transformation in complex operational environments. Seeking opportunities in smart manufacturing, industrial it, or automation-driven environments.

CORE COMPETENCIES

Smart Manufacturing / Industry 4.0: Industrial Internet of Things (IIoT), Smart Manufacturing Systems, Digital Twin Concepts, Industrial Data & Analytics, Manufacturing Cybersecurity, Robotics & Automation Basics

Industrial IT & Systems: IT Infrastructure in Industrial Environments, System Integration & Deployment, Network & Systems Administration, Process Optimization & Data Flow

Cybersecurity (Industrial Focus): Industrial Cybersecurity, Network Security Basics, Risk & Compliance

Project & Leadership: IT Project Management, Agile & Scrum, Stakeholder Coordination, Cross-functional Team Leadership

WORK EXPERIENCE

Information Technology Manager **Oct 2018 - Jul 2023**
Petroleum Industry Health Organization (PIHO), Iran

- Managed IT infrastructure across hospital and industrial healthcare facilities supporting oil & gas operations
- Led implementation of hospital information systems (HIS) and electronic health record (EHR) platforms
- Designed and deployed secure IT systems to support critical operations during COVID-19.
- Improved system reliability, data flow, and operational efficiency across multiple locations.
- Coordinated cross-functional teams to align IT systems with operational requirements.

Information Technology Manager **Jul 2014 – Oct 2018**
National Iranian Drilling Services Company (NIDSC), Iran

- Managed IT operations and infrastructure supporting drilling and industrial operations
- Led deployment of multiple enterprise software systems across operational units
- Improved network performance, system availability, and response times
- Implemented security measures to protect systems in high-risk industrial environments
- Oversaw IT team and coordinated with vendors for system integration and upgrades

Chief Controller – R&D Projects **Feb 2010 – Oct 2014**
National Iranian South Oil Company (NISOC), Iran

- Managed and monitored large-scale industrial and research projects
- Coordinated cross-functional teams and ensured project alignment with strategic goals
- Developed reporting systems and performance tracking frameworks
- Supported innovation and technology development initiatives in oil & gas sector

EDUCATION & TRAINING

Smart Manufacturing Certificate - George Brown College (Polytechnic), Toronto, ON **2026**
Industry 4.0 Infrastructure (Robotics & IIoT) Certificate - ToolingU SME, United States **2025**
Cybersecurity Fundamentals – Cybrary, United States **2025**
Google Project Management Certificate – Google / Coursera, United States **2024**
Master of Public Administration - Azad Islamic University, Iran *(As evaluated by WES)* 2014
Bachelor of Software Engineering - Azad Islamic University, Iran *(As evaluated by WES)* 2005
Associate Degree in Computer Software - Chamran University, Iran *(As evaluated by WES)* **2000**

ADDITIONAL CERTIFICATIONS (ToolingU SME)

- **Introduction to Additive Manufacturing**
- **Cybersecurity for Manufacturing Basics**
- **IIoT Infrastructure for Smart Manufacturing**
- **Organizing Big Data for Smart Manufacturing**
- **Introduction to Machine Learning & AI**
- **Introduction to Robotics &Robot Applications**
- **Digital Twins**

CERTIFICATIONS & TECHNICAL TOOLS

- **Certification in Auditing, Leading and Coaching CE of IMS and TQMS** - IMQ Academy
- **Agile Project Management -** by Google on Coursera (**2024)**
- **Certification in Information and Communication Technology Service Management ITIL**
- **Front End WEB Development** - Futuretek Academy
- **Certificate in Fiber Optic Network Engineering Firm** – Belden
- Networking & Systems: Windows Server, VMware
- Databases: SQL Server, MongoDB
- Tools: Jira, MS Project, Office 365
- Programming (Basic/Support): JavaScript, Node.js
